

Fastbind Case Making Equipment

Fastbind Casematic™ represents a revolution for on-demand hard cover making. Now you produce high quality hard cover books in a wide variety of formats. The unique positioning method makes it quicker than ever to align the board on the custom printed tacking cove. The Casematic includes a light table and vacuum assistance to insure easy & accurate placement. A center line and ruler markings help to perfectly align the cover, no matter the size. Once the cover is made, you can finish the book using a Fastbind Perfect Binder or PhotoBook Maker. We provide all the necessary materials, supplies and software to produce hard covers for the print-on-demand environment.

Fastbind Casematic H32 Lite™

Recommended retail price: **USD 2395**

The Fastbind Casematic H32 is the basic version of Casematic H32 Pro, with the same features except the edge folding unit. This fully featured compact tabletop unit makes professional hard covers in minutes.

Fastbind Casematic H32 Pro™

Recommended retail price: **USD 3995**

The new Fastbind Casematic H32 Pro is optimized to work with Fastbind PhotoBook Makers, Perfect Binders and BooXter Binders, allowing you to produce high quality hard covers in a variety of formats, up to 13" x 13". This versatile case maker features registration marks for thicker and thinner cover boards and quick-change spacers for spine guides. The H32 Pro adds a user-friendly edge-folding unit adjustable for different board thickness.

Fastbind Casematic H46™

Recommended retail price: **USD 4995**

The new Fastbind Casematic H46 Pro is our larger version of the H32Pro, up to 20.5" x 19.3" allowing you to produce high quality hard covers in a variety of formats, quickly and easily. With the advanced Fastbind Casematic H46 Pro™, you produce professional tailor-made hard covers in the format of your choice; you design the cover of your choice then print it on your digital printer (laser or inkjet). Finally just follow the easy steps on your Casematic H46 Pro to produce the actual case or cover. **Options for all models: Spine Guides Kit 10mm to 16mm@\$119, Corner Cutter @\$399, Side/Back Guide@\$169, Cover Design Software @\$495.**

Fastbind Materials for Customized Hard Covers

With the new Fastbind Casematic™ product line, you quickly produce high quality hard cover books in a print-on-demand environment. Fastbind offers all needed supplies to produce your customized hard covers. It consists of printable adhesive sheets, endpapers and grey boards with spine assortments. Producing customized hard cover books with Fastbind supplies is very easy: print your cover on the tacking sheet, make your cover on a Casematic. Place an endpaper on each side of your book block. Bind your book on a Fastbind perfect binder and peel out the endpaper! In addition to hard cover books, the Fastbind Casematic product line allows you to produce CD and DVD boxes, ring binders, photo albums, restaurant menus.

Fastbind Printable Tacking Paper™ for Hard Cover Production -with H32, H32PRO & H46

Fastbind offers printable tacking sheets for laser and high resolution inkjet printing. You can order them in standard size (laser: 12.95" x 19.69", inkjet: 12.95" x 20.87") or large format (12.95" x 26"). Our inkjet printable paper is also available in roll (24" x 60") for extra large applications! We recommend laminating the printed tacking sheet in order to protect the print image against long term damage. We now offer lami-free paper, that when printed in a laser printer, does not require lamination! Ask us for details!

Fastbind Perfect Binding Machines

The new generation of Fastbind perfect binders is the result of 25 years experience and co-operation with paper mills and digital printers. The glue-penetration system ensures the strongest binding results even for demanding applications. The patented PGO (Paper Grain Opening) system is a noiseless and dust-free roughening unit that allows our binders to handle the most difficult papers. The flexible change from soft cover to hard cover and padding takes just a few seconds. All Fastbind perfect binders self-adjust automatically to different thicknesses and page formats (up to 1.5" thick and letter size for most models and up to 2" thick and ledger size for the Elite XT). There are no setup times or adjustments required allowing non-stop production between different binding jobs.

Fastbind Elite™

Recommended retail price: **USD 4595**

Fastbind Elite is a perfect binding system featuring a manual PGO, gluing and nipping. The operator controls the number of PGO passes that need to be made to ensure a solid bind. The twin rollers guarantee the strongest binding even with the most difficult papers. It is a perfect and budget friendly choice for copy-shops, commercial printers and corporate in-house print-centers needing short to medium run professional quality soft and hard cover binding.

Optional accessories: Hardcover Toolkit \$139 (Letter size) and Cover Trimmer \$399 (model 1).

Fastbind Secura™

Recommended retail price: **USD 3495**

Fastbind Secura is a manually operated compact binder, which includes many of the standard features of our higher volume binders (automatic paper fanning for glue penetration and self adjustment for clamping and nipping). It was the first model of its generation allowing soft cover, hard cover and tape binding, all from a single compact binder! Its user-friendliness and heavy-duty construction will give you many years of productivity and trouble free operation for a quick return on investment.

Optional accessories: Hardcover Toolkit \$139 (Letter size) and Cover Trimmer \$399 (model 1).

Fastbind Elite XT™

Recommended retail price: **USD 5295**

Fastbind Elite XT binds books up to ledger+ size (12.5" x 17.7") or letter landscape. The Elite XT is an exceptionally versatile manual perfect binder. It self adjusts for book thickness from 0.004" to 2". You control the number of PGO passes that need to be made, to ensure a strong bind. For the best quality, it is also possible to change the position of the paper stopper to one of the three positions for ledger, letter or statement standard formats. The Elite XT is ideal for print/copy shops, binderies, school yearbook publishers and photography laboratories for both soft and hard cover binding.

Available optional accessories: Hardcover Toolkit (XT) \$179. No Cover Trimmer available for this model.

Fastbind BooXter Binder Duo (BooXter Quatro coming soon! ask us for details)

Fastbind BooXter Duo™

Recommended retail price: **USD 1995**

The pioneering Fastbind BooXter Duo is the ultimate book binding machine. Its powerful electronic stapling unit produces an excellent binding result, with any materials; it handles photo paper and coated stock as easily as normal copy paper. The Compact BooXter Duo fits in any corner of your office or workshop. Very discreet, quiet and clean, it works perfectly when you need it and becomes unnoticed when you don't. You can bind professional books, reports or photo books in a few seconds. The result is always a strong, square and perfect book. The Fastbind BooXter Duo offers the widest range of finishing solutions in the market. Hard covers, soft covers, paper covers, stripe backs, simple stapled-back binding... any format, up to SRA3 with no set-ups or special adjustments when changing finishing methods. Easy!

New Fastbind BooXter Treo

Fastbind BooXterTreo™

Recommended retail price: **USD 3795**

As a natural evolution of the pioneering Fastbind BooXter Duo™, the new BooXter Trio™ offers semiautomatic operation. You just place the paper block in the machine and press the start button: The BooXter Trio™ will automatically staple the book block. This greatly simplifies your work process and improves binding quality. The gravity-aided positioning deck and the adjustable back support ensure a perfect, square alignment every time. The upright position of the book block combined with the stapler head position ensure consistent placement of staples both vertically and horizontally. Three stapling modes are supported: Single-side, best suited for stripe backs and simple stapling; Double-side, which allows you to stapling from both sides, best suited for hard soft and hard cover books and Ring Hole, which places staples between standard ring hole positions. The Fastbind BooXter Trio™ handles photo paper and coated stock as easily as normal copy paper. Use it to bind sheet lengths up to 18" and thicknesses up to 3/8" with normal office paper and up to 1/4" with coated paper (depending on materials). Unit comes with cover setter.

Fastbind BooXter Duo Supplies™ - for use with BooXter Duo/Treo

Fastbind BooXter End sheets are stapled together with the book block and attached to the inner surface of the cover. You always need end sheets as pairs. The process is fast and easy, and the result is a strong hard cover book that will last for years to come. A special foam strip built into the end paper ensures the metal stitch will not cut through the cover. The sheets can be used for any/all staple stitch book binding operations.

Fastbind Photo Album Makers

The innovative Fastbind FotoMount™ product line now allows printers and photographers to create premium tailor-made photo albums from photographic paper, card, laminated material, copy paper and basically any prints. With the Fotomount system, single sided prints of inkjet, laser, photo paper or any kind of print are mounted onto thick (850 micron) or thin (200 micron) boards into a block in a smooth and accurate operation. When matched with a custom made hard cover made with a Fastbind Casematic™ or with a pre-made album cover of your choice, the result is a deluxe photo album, appropriate for wedding albums, baby books, memory books etc. The Fastbind FotoMount is a superior solution, designed specifically with the photographic studio, photo lab and professional photographer in mind.

Fastbind FotoMount F32™

Recommended retail price: **USD 2195**

Fastbind FotoMount F32 is a manual deluxe Photo Album Maker using the pioneering Fastbind Mountinglift™ system (patents pending). With the FotoMount F32, single sided prints of inkjet, laser or photo paper are mounted onto thick (850 micron) or thin (200 micron) boards into a block in a smooth and accurate operation. You can produce lay flat mounted book formats from 2"x 2" up to 12.2"x 12.4" and you achieve an edge-to-edge panoramic view on each page. The maximum size of prints is 24.8"x 12.6." Once your book block is ready, use a cutter/guillotine to trim it, then mount it to the hard cover of your choice. The finished photobook mounted pages open an astonishing 180 degrees. A *Cover Guide* and two *Cover Positioning Holders* are included. *Optional accessories: Supply Shelf.* USD \$599

Fastbind FotoMount F42™

Recommended retail price: **USD 2995**

Fastbind FotoMount F42 is a larger version of FotoMount F32, designed to fit the needs of heavy duty users. With the FotoMount F42, single sided prints of inkjet, laser or photo paper are mounted onto thick (850 micron) or thin (200 micron) boards into a block in a smooth and accurate operation. You can produce lay flat mounted book formats from 2"x 2" up to 16.2"x 12.4" and you achieve an edge-to-edge panoramic view on each page. Once your book block is ready, use a cutter/guillotine to trim it, then mount it to the hard cover of your choice. The finished photobook opens an astonishing 180 degrees. A *Cover Guide* and two *Cover Positioning Holders* are included. *Optional accessories: Supply Shelf.* USD \$599.

Fastbind FotoMount F46e™

Recommended retail price: **USD 4995**

Fastbind FotoMount F46e is a large format electric PhotoAlbum Maker, allowing you to produce photo album formats up to 18"x 18". All movements of the Mountinglift™ are operated with a foot pedal. The F46 has a supply shelf for pictures and supplies, which saves space and makes working faster and easier. A *Cover Guide*, *Supply Shelf* and two *Cover Positioning Holders* are included.

Fastbind FotoMount™ Supplies for Premium Photo Albums

The innovative Fastbind FotoMount™ product line allows printers and photographers to create premium photo albums from photographic paper, card, laser, inkjet, copy paper or basically any print. They can produce the matching hard cover with a Fastbind Casematic™. The result is a deluxe photo album, appropriate for personal books, wedding albums, memory books etc.

Fastbind FotoMount End Sheets™ & Mounting Sheets™ for use with F32/F42/F46

Fastbind FotoMount Mounting Sheets™ form the core of the mounted lay flat album book block, and Fastbind FotoMount End Sheets attach the book block to the cover. You need 2 end sheets per book and 1 mounting sheet for each two sides or 1 spread, choose 200mc (thin) or 850mc (thick). Use any print, photographic paper, digital laser or large format ink jet, you choice!

Fastbind Creasing Machines

Fastbind C400™

Recommended retail price: **USD 659**

This low cost creasing machine is heavy-duty, easy to operate and powerful. Paper materials up to 225 index paper and up to 15.7" long can be creased. The C400 can make up to four creases without any adjustments. The unique design of the spring loaded handle makes it effortless and very easy to use. The C400 is easy to use and makes an accurate crease every time.

Fastbind FotoCreaser C47e™

Recommended retail price: **USD 2695**

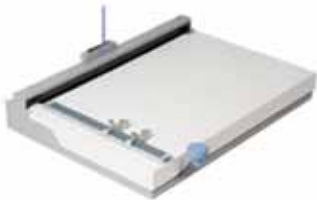

The new electric Fastbind FotoCreaser C47e allows you to make creases up to 18" wide. According to your preferences, you can make the crease either by pressing the foot pedal or the hand button. The FotoCreaser C47e works with almost any paper/card up to 225 gm thick index. It has a reversible, quick-change blade for thicker and thinner materials and an adjustable backstop.

Fastbind C500™

Recommended retail price: **USD 995**

The new Fastbind C500™ is heavy-duty creaser with new innovations to make large-format, premium creasing easier than ever before. A new, innovative creasing mechanism means you need even less manual force to make a perfect crease. You can effortlessly crease paper materials up to 19.6" long. The C500™ also uses new innovative paper guards for optimized creasing in soft cover production. The guards allow you to easily position the soft cover to correctly space the four creases for the cover fold. In addition a side guide ensures perfect 90-degree alignment of creases.

Fastbind C-Rollo™

Recommended retail price: **USD 2495**

The Fastbind Rollo™ has been developed to meet the unique needs of photographic studios, photo labs and professional photographers. An innovative new creasing mechanism increases the creasing depth without damaging the printed surface of high quality photographic paper. The improved crease depth makes folding the print straight along the crease much easier. The creasing point of the blade can be visually aligned to ensure valuable prints are creased correctly. Guides allow to set up four creases quickly and easily for materials up to 400 g/m² thick and 18.7" long. Creasing power can be adjusted for harder and softer materials as needed.

Fastbind Presso™ - Gap/Groove press

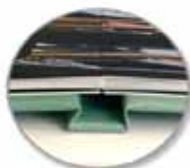

Recommended retail price: **USD 1695**

The Fastbind Presso™ introduces a completely new product line for creating high-quality spine gap grooves in hard cover books. The Presso™ is a thermal press designed to make spine gap grooves quickly and easily. The groove quality dramatically improves the appearance of all hard cover books. It makes symmetrical, deep, smooth spine gap grooves with heat and pressure that hold tight against the book block every time. The Fastbind Presso™ can be used with hard cover books up to 1.7" thick and spine length up to 18.5".

Laminating Machines

Laminating provides invaluable protection for your important papers, guarding against water, oils, wrinkling and tearing. It's ideal for protecting hard cover tacking sheets as well as many other kinds of printed papers.

L2750 27" laminator with stand

Recommended retail price: **USD 3495**

The L2750 makes it easy for you to get professional laminating results right in your own shop. Documents are permanently sealed and preserved with a durable clear surface. Laminating also sharpens and brightens colours, adding a handsome finish to all your work. The L2750 model has a 3" & 1" core capability, cooling fans and a roller stand. The L2750 has both one side and two sided laminating at speeds of up to 11-1/2' per minute. The max laminating width is 27" and the max laminating thickness is 10 mil. Static eliminator, protective shield, cooling fans and rolling stand are included.

L1350 13" laminator with stand

Recommended retail price: **USD 2695**

The L1350 is a 13" wide fully featured laminator, for one side and two sided laminating. With a laminating speed of up to 11-1/2' per minute, it has a maximum thickness of 10mil and supports both 1" and 3" core sizes. The L1350 has cooling fans and a rolling stand.

L2710 27" laminator

Recommended retail price: **USD 1995**

When your professional requirements include a dependable, simple to operate laminator, the L2710 meets those needs. Perfect for school, print shops and office the L2710 is designed to quickly and efficiently provide the permanent protection you're looking for. The L2710 laminates up to 27" wide with a speed of 11' per minute and supports 1" core. The L2710 does not have cooling fans or stand.

Cover Press

Recommended retail price: **USD 695**

The Cover Press uses heat and pressure to finish your just made custom hard cover made on the Fastbind Casemaker H32, H32Pro or H46Pro. Turning the edges and pressing the tacking sheet deep into the fibres of the binder board makes the finished custom hard cover professional and beautiful.

Guillotine Cutters

4305 w/stand

Recommended retail price: **USD 2195**

The 4305 manual cutter has a "SCS" (Safety Cutting System) and a cutting width of 16 7/8", a cutting depth of 1.5" and a transparent safety guard on front table (locks automatically while cutting). It has a safety catch (locks blade lever in up position), a manual paper clamp and an extra large cut lever that requires minimal effort. The 4305 comes with a stand. Other models are available.
